PDP MATCH

5" STEEL FRAME

FEATURES OF THE WALTHER PDP MATCH STEEL FRAME:

1.) Industry Standard Sights: Customize your shooting experience with ease using industry-standard sights, ensuring precise and accurate aiming.

2.) Wrap-Around Grips: The ergonomic wrap-around grips provide a comfortable and secure hold, enhancing your ability to stay on target, shot after shot. The grip is engineered to provide a secure, non-slip hold in any conditions, allowing you to maintain control, even in the most demanding shooting situations.

3.) SuperTerrain Slide Serrations: The SuperTerrain Serrations are uniquely designed protruding serrations on the slide, allowing for quicker and more responsive hands-on engagement with the pistol.

4.) Dynamic Performance Trigger: Experience a new level of control and responsiveness with the dynamic performance trigger. Whether during rapid-fire scenarios or critical engagements, the PDP Match trigger system ensures consistent and precise shots, enhancing your accuracy and confidence on the field.

5.) Aluminum Magwell: Enhance your reload speed and streamline your performance with the aluminum magwell. Designed to provide effortless magazine changes, the magwell optimizes your handling for seamless transitions between rounds, keeping you in the action without missing a beat.

6.) Optics Ready: The PDP Match is optics ready, allowing you to seamlessly integrate your preferred optic for enhanced accuracy and target acquisition. Whether you're a fan of red dots, holographic sights, or other optics, the PDP Match adapts to your needs with ease.

7.) 18/20 Round Capacity: Ensure ample firepower with a generous 18 or 20-round magazine capacity, providing you with extra rounds for added confidence in critical situations.

8.) Ambidextrous Magazine Release: Conveniently positioned for thumb operation. Reversible for right or left hand operation.

9.) Ported Slide: For weight reduction and barrel cooling.

Overall Length:	213 mm
Height:	146 mm
Weight (empty mag):	1.195 g

Step into a new dimension of firearms excellence with the Walther PDP Match Steel Frame – a masterpiece meticulously designed to shatter performance boundaries and redefine precision. This extraordinary firearm is not just an evolution; it's a revolution, introducing a precision-machined steel frame that elevates the concept of excellence to unprecedented heights. Unrivaled Precision-Machined Steel Frame: At the core of the Walther PDP Match Steel Frame, you'll discover a host of advantages. The precision-machined steel frame guarantees the PDP Match's ability to endure the harshest conditions, emerging as a steadfast companion for countless years of service. The substantial weight of the steel frame is a game-changer, significantly taming recoil and delivering a level of smoothness in every shot that's second to none. The result? Lightning-fast follow-up shots and laser-like accuracy. Whether you're engaging in rapid-fire sequences or demanding precision shooting, the steel frame's weight contributes to unwavering stability, granting you the control needed for consistently superior results. The meticulous balance between the slide and frame fine-tunes the handling of the PDP Match Steel Frame, making it the embodiment of precision and control for the most demanding shooters. With the inherent stability provided by the steel frame, you'll achieve groupings that are almost unbelievable and shot placement that's nothing short of perfection. Your shooting performance is taken to the next level.
